Research Interests

Research Area: Cryptology, Cryptanalysis.

Lattice based cryptography, computational number theory, computer algebra for applications in classic and post-quantum cryptography.

Research Experiences

- Since Jul. **Postdoctoral Researcher**, at Interdisciplinary Centre for Security, Reliability and 2022 Trust of University of Luxembourg (SnT).
- Nov. 2018 **Doctoral Researcher**, at *Interdisciplinary Centre for Security, Reliability and Trust* Jul. 2022 of *University of Luxembourg (SnT)*, under supervision of Prof. Jean-Sébastien Coron.

Education

- Nov. 2018 **Ph.D. in Cryptography**, *Université du Luxembourg*, Esch-sur-Alzette, Luxembourg. Jul. 2022
 - Ph.D. Thesis: On the hardness of the hidden subset sum problem: algebraic and statistical attacks, under supervision of Prof. Prof. Jean-Sébastien Coron.
- Sep. 2015 **Master degree in Mathematics**, *Università di Pisa*, Pisa, Italy, 110/110 cum laude. Jun. 2018 o Computer algebra specialised curriculum.
 - M.Sc. Thesis: Supersingular Isogeny Diffie Hellman: Algorithms and Quantum Security, under supervision of Prof. Carlo Traverso and Prof. Dvornicich Roberto.
- Sep. 2011 Bachelor degree in Mathematics, Computational curriculum, Università di Jul. 2015 Pisa, Pisa, Italy, 99/110.
 - B.Sc. Thesis: The real radical computation, under supervision of Prof. Patrizia Gianni
 - 2011 **High school degree**, *Liceo Scientifico XXV Aprile*, Pontedera, Italy, 100/100 cum laude.

Publications

- On the algebraic immunity of weightwise perfectly balanced functions with Pierrick Méaux.(C2SI2023) Full version: ia.cr/2023/495
- Weightwise almost perfectly balanced functions: secondary constructions for all n and better weightwise nonlinearities with Pierrick Méaux.(INDOCRYPT2022) Full version: ia.cr/2022/1434
- On the weightwise nonlinearity of weightwise perfectly balanced functions with Pierrick Méaux in Discrete Applied Mathematics doi.org/10.1016/j.dam.2022.08.017 Full version: ia.cr/2022/408
- Provably Solving the Hidden Subset Sum Problem via Statistical Learning with Jean-Sébastien Coron. (MathCrypt2021) Full version: https://ia.cr/2021/1007

- o A Polynomial-Time Algorithm for Solving the Hidden Subset Sum Problem, with Jean-Sébastien Coron. (CRYPTO2020) doi.org/10.1007/978-3-030-56880-1_1. Full version: https://ia.cr/2020/461.pdf
- Improved Cryptanalysis of the AJPS Mersenne Based Cryptosystem with Jean-Sébastien Coron. (NutMiC2019) doi.org/10.1515/jmc-2019-0027.

Activities

Talks.

- What we know (and do not) about the hidden subset sum problem, CrossFyre23, April 23, 2023.
- On the hardness of the hidden subset sum problem at Women in Algebra and Symbolic Computations II, November 30, 2021.
- Precomputed DL sets for speeding up cryptography have an expiration time at UL, October 19, 2021.
- Provably Solving the Hidden Subset Sum Problem via Statistical Learning at Math-Crypt2021, Virtual, August 15 2021.
- Polynomial-Time Algorithm for Solving the Hidden Subset Sum Problem at CRYPTO2020, Virtual youtu.be/LXWtgl54Eos, August 17-21 2020.
- Improved Cryptanalysis of the AJPS Mersenne Based Cryptosystem at NutMiC2019, Paris, June 27, 2019.
- Short Integer Solutions A Worst-case to Average-case Reduction at University of Luxembourg in Introduction to lattices and their applications in Computer Science and Cryptography- Seminar, June 14, 2019,
- Supersingular Isogeny Diffie Hellman: Algorithms and Quantum Security at CWI Amsterdam, September 12, 2018.

Schools.

- Selected Areas in Cryptography (SAC) Summer School. Virtual, October 19-23, 2020.
- Selected topic on High Performance Computing Summer School. Esch-sur-Alzette, Luxembourg, June 20-21, 2019
- Mathematical Foundations of Asymmetric Cryptography Winter School. Aussois, France, March 17-22, 2019

Conferences and workshop attendance.

EUROCRYPT2019, NutMiC2019, Luxembourg Number Theory Day 2019, EUROCRYPT2020, PKC2020, CRYPTO2020, MathCrypt2021, EUROCRYPT2022, EUROCRYPT2023.

Doctoral Education Trainings.

- PCAP: Programming Essentials in Python (Parts 1 and 2) by Cisco Networking Academy, in the frame of UL Competence Centre courses. Spring 2021.
- Elements of AI, elementsofai.lu in the frame of UL Competence Centre courses. Spring 2021.
- Number theory for cryptography. Course taught by Prof. Dr. Gabor Wiese, in the training program of the SP2 DTU. Fall 2020.
- Introduction to Cyber-Security. Course taught by Tristan Madani, in the frame of the UL Doctoral Programme in Computer Science & Computer Engineering. Fall 2020.
- Data visualisation and statistical graphics with STATA. Course taught by Dr. Philipp Van Kerm, in the frame of the UL Transferable Skills Courses. June, 2020.
- Algebraic Geometry. Course taught by Prof. Dr. Sarah Scherotzke, in the frame of the UL Doctoral Programme in Mathematics & Applications. Fall 2019.

- Introduction to Lattices and their Applications in Computer Science and Cryptography. Seminars, in the frame of the UL Doctoral Programme in Computer Science & Computer Engineering. Spring 2019.
- Blockchain and Distributed ledgers: from theory to programming. Course in the frame of the UL Doctoral Programme in Computer Science & Computer Engineering. October 14-15, 2019.
- Good Scientific Practice. Course taught by Dr. Michael Gommel, in the frame of the UL Transferable Skills Courses. August 1-2, 2019.
- Curves over Finite Fields. Course taught by Prof. Dr. Gerard van der Geer, in the frame of the UL Doctoral Programme in Mathematics & Applications. Spring 2019.

Teaching Experiences

- Spring 2023 Teaching course, Software Foundations.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
 - Fall 2022 Master project supervisor, Commitments protocols as a tool for blockchain and cryptocurrencies, Semester 3.
 - Master in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
 - Fall 2022 **Teaching course**, Security 1.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
 - Fall 2022 **Bachelor project supervisor**, Cryptographic Hash Functions and the Fiat-Shamir paradigm, Semester 3.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
- Spring 2022 **Bachelor project supervisor**, Challenges of Secure Hash Algorithms, Semester 2. Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
 - Fall 2021 **Bachelor project supervisor**, Subset Sum Problem: theory and practice, Semester 5.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
- Spring 2021 **Bachelor project supervisor**, BCI for Patients unable of verbal communication, Semester 2.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
 - Fall 2020 **Bachelor project supervisor**, Linear algebra low-level routines: theory and applications, Semester 1.
 - Bachelor in Computer Science, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
- Year 2017/18 Teaching assistant, Mathematics and Statistics.
 - Dipartimento di Scienze Agrarie, Università di Pisa, Pisa, Italy
 - Sep. 2017 Counselor, High-school student orientation.
 - Dipartimento di Matematica, Università di Pisa, Pisa, Italy
 - Reception students, editing of the open days journal, authorship article "Paper and pencil: TWIXT!"
 - Spring 2017 **Teaching assistant**, Geometry and Linear Algebra.
 - Dipartimento di Ingegneria Civile e Industriale, Università di Pisa, Pisa, Italy
 - Fall 2016 Teaching assistant, Linear Algebra.
 - Dipartimento di Ingegneria dell'Informazione, Università di Pisa, Pisa, Italy

Languages

- Italian: Mother tongue.
- English: Fluent.

 ${\color{red} \circ}$ French: Beginner.
